SOUTHERN CROPS

ABOUT US

We are one of the largest Argentine producers and exporters of high-quality fresh cherries during the south hemisphere season. We are a trusted supplier with quality certified products and due to the latitudinal length between our farms, our customers can benefit from an extended harvest season, pleasing their high-end consumer during a 14-week calendar production.

OUR GUIDELINES:

Excellence is our compass.

Take care of our customers and make them look good.

Best employer.

Innovation and technology.

Environmentally responsible.

PRODUCTION

- Stages:**
- Pre-Season preparation
 - Smart harvest
 - Packing at source according to customer specifications and demands.

QUALITY CONTROL : SOUTHERN CROPS LAB

- Our team of specialist carry out a daily high standard quality control process, with measurements in our crops, during packing our and before shipping.
- Hydrocooling technology
- Electronic cherry sorter
